

HP Elite Presenter Mouse (2CE30AA)

Take control of your presentations and productivity with one versatile device

Run presentations and guide onscreen content with a virtual laser[1] from the palm of your hand, anywhere in the room, or navigate your PC's applications at your desk, with the sophisticated HP Elite Presenter Mouse. It's an ultra-modern, multi-functional accessory that's a pointer and mouse in one.

Work the room

Control and point to presentations from the front or back of the room—without rushing to your PC to change slides—or seated alongside your colleagues, with a wireless range up to 30 ft (10 m) from your Bluetooth®-paired PC.

Make your point

Use the real-time virtual laser pointer[1] to highlight Adobe® PDF or PowerPoint content onscreen in a conference room and on remote viewer screens when you share your presentation through your collaboration application.[2]

Give your mouse a style upgrade

Turn the mouse and turn heads. Get complete functionality without compromising elegance with a sleek metal-accented device that converts from a flat pointer with basic mouse functions to a comfortable, full-featured mouse with one quick flip.
