HP All-in-One 24-cr0232la PC (BA1V4LA)

Overview

Designed with measurable sustainability features

This slim, HP 23.8" All-in-One Desktop PC empowers you to do more while using less. Thoughtfully designed using post-consumer recycled and ocean-bound plastics[1]. With a powerful processor, upgraded memory and enhanced multitasking features, there's no compromise for heightened performance.

Designed with purpose

World's first PC with recycled coffee grounds[3], and contains post-consumer recycled and ocean-bound plastics[1].

Ready to take on the day, every day

Face the day with a dependable AMD Processor[5], ample storage, fast connections, and plenty of memory.

Built to keep you connected to your crew

Made for true collaboration with a tiltable, pop-up privacy camera[4], dual mics, and advanced noise-reduction.

Features

Windows 11

Get a fresh perspective

From a rejuvenated Start menu, to new ways to connect to your favorite people, news, games, and content—Windows 11 is the place to think, express, and create in a natural way.[2]

AMD Ryzen™ 7000 Series Processors

Experience a whole new level of speed and power in a PC powered by AMD Ryzen™ processors. Accelerate your work and your creativity with blazing fast speed. Explore true freedom and flexibility.[5]

AMD Radeon™ graphics

Whether it’s games or movies, experience high performance for all your entertainment.

IPS

FHD IPS display

Enjoy crystal-clear images from any angle. With 178° wide-viewing angles and a vibrant 1920 x 1080 resolution, you'll always have a great view of your favorite content.[6]

Anti-glare panel

Enjoy the sun and your favorite content with this anti-glare panel. Non-reflective and low gloss means you'll get less glare while you're outside.

Flicker-free

Using DC Dimming technology that controls brightness by adjusting direct current rather than cycling the backlight, we can eliminate screen flickering for more comfortable viewing.[7]

---

[1] With 40% post-consumer recycled plastic. Percentage of post-consumer recycled plastic, and ocean-bound plastic varies by product.

[3] HP internal analysis based on all PCs in the market as of November 2022. Recycled coffee grounds are used as speckles in the finish of the PC.

[4] Features may require software or other 3rd party applications to provide the described functionality.

[5] Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. AMD’s numbering is not a measurement of clock speed.

[2] Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows is automatically updated and enabled. High speed internet and Microsoft account required. ISP fees may apply and additional requirements may apply over time for updates. See http://www.windows.com.

[6] Full high-definition (FHD) content is required to view FHD images.

[7] The flicker-free capability eliminates screen flickering through integrating DC-dimming LED backlights.
